

# Numbots!

A new game we now have access to that I would highly recommend to support your child at home in Maths! It is a fantastic resource to help your child build up their **quick recall of number facts** and it is fun!

Website: <https://play.numbots.com/> OR You can access on TT rockstars.

It is the SAME login for Numbots and Times Table Rockstars.

If your child has lost their login, please email me on [afilder@weststreet.lancs.sch.uk](mailto:afilder@weststreet.lancs.sch.uk) or message me on Class Dojos.

You can download the 'Numbots' App for free also.

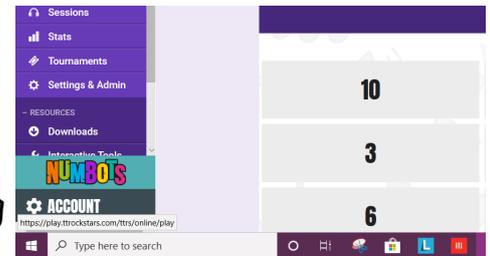

Please support your child if they need any help but make sure it is just your child, not other family members playing on their account, as it will move them on to challenges that they may not be ready to move on to.

If you would like me to set particular challenges for your child to complete, please contact me.

I can see how frequently your child logs on to Numbots and the games that they complete.

If your child is struggling on a particular Challenge, encourage them to persevere and keep trying with it.

This is the homepage you will see. Click on the arrow and select 'school'.

You can also click on the 'Numbots' tab on TT Rockstars.

## Story - this section includes questions in words.

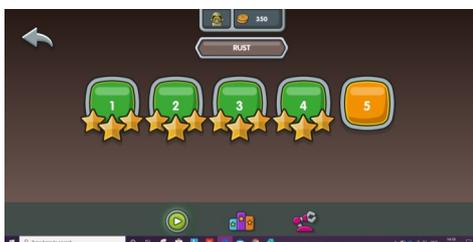

This section is best for understanding and gives pictures to

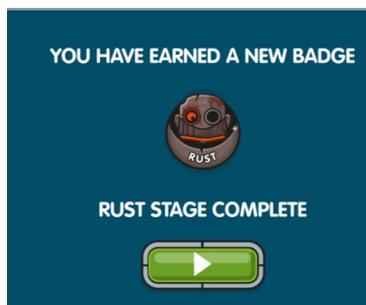

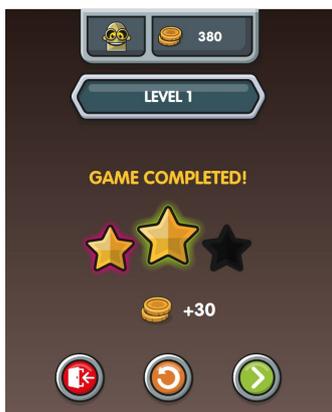

You have to work your way through each stage. The stages get harder each time.

It starts off quite

Each stage has levels you need to

The levels focus on the same objective for example, the first stage is 'numbers to 5' - each level will have different problems based

Once you have completed the levels in each stage, you can begin the next!

There is NO rush with this section! It is not timed. 10 minutes a day on this section

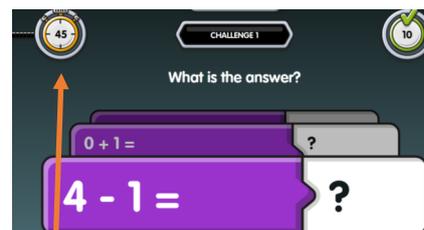

## Challenge - this section is calculations only (number sentences)

It is better for practising to recall number facts. 10/15 minutes a day will really help you get quicker at being able to answer these questions

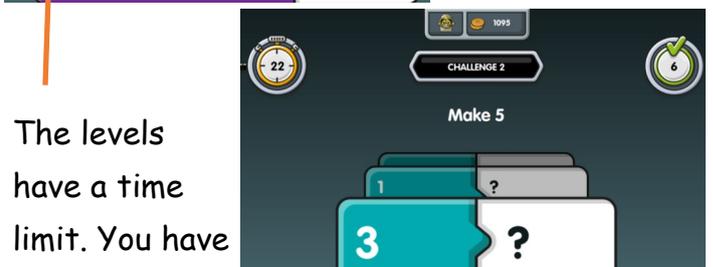

You can chose a challenge to work on.

It would be best if you:

- start with stage 1 and work your way up through the challenges in each first.

Each level on the challenge is slightly different.

The levels have a time limit. You have to answer 12

questions before you can move onto the next level.

To retry you can click the orange button.

When you have moved up to the next level you will see this green
