Parking

Some concerns have been raised relating to the safety of pupils entering and leaving school. We are quite limited for parking for parents dropping off and collecting from school which can cause congestion particularly at home time.

I have asked the school bus to park on West Street at the end of the day to free up some space and to enable better vision. I have also requested that traffic wardens monitor the situation.

Please could I ask parents to ensure the following:

- Parking is not on the zig zag or double yellow lines
- Parking does not block gateways or entrances/exits to the car parks
- Children are monitored very closely when near roads preferably with young children holding an adults hand

Packed lunches

This has proved quite popular this week so to enable Marie to order the necessary quantities of food and to prepare them we will be doing the following:

from today a booking form for packed lunches will be sent home on a Friday with children. This should be completed with the day and choice of sandwich and returned on Monday.

FREE SCHOOL MEALS

Please could I ask **ALL parents from R to Y6** to check their eligibility for free school meals. Even if your child is on packed lunches it is important you check. The school receives additional funding for every child on FSM. With the government's school budget cuts every penny is essential!

We can help you check so please ask at the office if you have not checked; you need your NI number. You **WON'T** be eligible if you claim working tax credits.

Whole school
attendance this week
97.2% - above our
target of 96.5%

WELL DONE EVERYONE
